

To Men of Good---Clothes---Sense.

It is well worth while, for you and for us, to set forth a plain statement of the facts about ready-made clothes.

This is it. After you read it, you can do, and probably will do, just as you please about it, but you'd better have the facts; it's foolish, and sometimes dangerous to do just as you please without having the facts.

You'll find in every city, a few custom tailors--we're not referring to so-called book orders--who make clothes really worth paying for. They charge \$40 to \$65 for a suit; they give you the best of quality, the best of tailoring, fit, style, these are the things you pay the extra money for. If you can afford to spend that much, go to such a tailor and spend it. Any man who doesn't need to worry about parting with \$40 or \$65 needn't worry about what he gets for it.

But if you're going to spend less than that, spend a good deal less and wear ready-made clothes. We know what some of you will say: "I tried ready-made once; not for me." "They may do for some but I can't be fitted." "There's no style to 'em." In other words, you don't know the facts; and you're losing money by your ignorance.

The fact is, if you haven't tried our clothes, tailored by Alfred Benjamin & Co., and Hart, Schaffner & Marx, you don't know the real progress in making men's clothes, as for style, many custom tailors get their ideas from these makes. Our lowest priced suit has the same style as our best. As for fit, there's not one man in a hundred who can not be perfectly fitted from our representative stock of clothes without delay--tall, short, thick, thin, men of all types.

The clamor for low prices, and the very high price of materials, which have debased quality for so many of our competitors, have simply strengthened our position. We are selling clothes that in style, fit, quality are good enough for any man; and not too high priced for any man.

You'll find it out some day, if you don't already know it.

New Ice Plant Proposition.

H. D. Pownall, of Cincinnati, Ohio, has been here a few days looking into the proposition of placing a thirty-ton ice plant here for the Roswell Gas Co. He says that all arrangements have been made and that the

plant will be ready for operation next summer. Will D. Sweet, representing the Wellington Ice & Cold Storage Co., of Wellington, Kansas, was also here on the same mission. Mr. Sweet has been delegated by the

Cincinnati people to superintend the erection of the plant. Both of the visitors left this morning for the East.

Wedding at Elida Sunday.

Rev. Henry F. Vermillion went to Elida Sunday to conduct the dedication service for the new Baptist church there, but the service was postponed on account of the bad weather. However, Rev. Mr. Vermillion officiated at a wedding while at Elida. The contracting parties were James H. Weldon, a student minister of the Baptist faith, and Miss Maggie Covington, daughter of the Baptist minister at Elida. The ceremony was performed at the home of the bride's father, at four o'clock Sunday afternoon. The couple will go to Dallas, where the groom is studying for the ministry. Rev. Mr. Vermillion returned to Roswell Sunday night.

The Argument That Goes AT THE LAND OFFICE.

There is one that is not questioned—they give you your title without a word when you have scrip. The usual red tape is laid aside—there is nothing to do but make out the papers. Let me talk Scrip to you. I sell worlds of it—if you are wise you will get in on it before the cream of the public land is gone. Remember

Hustle and Grin.

Smile and the world smiles with you
"Knock," and you go alone;
For the cheerful grin
Will let you in

Where the kicker is never known.
Growl, and the way looks dreary.

Laugh, and the path is bright.
For a welcome smile

Brings sunshine, while
A frown shuts out the light.
Sigh, and you attain nothing.

Work, and the prize is won;
For the nifty man

With backbone can
By nothing be outdone.

Hustle, and fortune awaits you,
Shirk, and defeat is sure.

For there's no chance
Of deliverance

For the chap who can't endure.
Sing, and the world's harmonious.

Grumble, and things go wrong,
And all the time

You are out of rhyme
With the busy bustling throng.

Building a Home On Easy Payments

That's an attractive proposition for anybody who has been paying rent to make the other fellow rich, all these years. The trouble with most folks is that they don't know how to do it—it seems like betting on the other fellow's game. After you master the theory and practice of the building association it seems odd that you make such a mistake as to pay rent all these years.
